

GRANTT LONG LIFE RADIATOR COOLANT CONCENTRATED

Product Description

GRANTT LONG LIFE RADIATOR COOLANT CONCENTRATED uses a technically advanced HOAT (Hybrid Organic Acid Technology) based corrosion inhibitor system that protects against rust and corrosion of all cooling system components. This advanced technology offers instant protection to all engines from freezing and boiling in severe weather conditions.

Application	<p>GRANTT LONG LIFE RADIATOR COOLANT CONCENTRATED is recommended for both gasoline and light duty diesel engines. Also, it is suitable for use in all type vehicles which meets or exceeds the following performance requirements or manufacturer's specifications:</p> <ul style="list-style-type: none"> • JIS K2234 – 2006 Class II • British Standard BS 6580:2010 • ASTM D3306 <p>Please consult Original Equipment Manufacturer's (OEMs) recommendation on the coolant and water (distilled ideal) mixture to achieve an optimum protection.</p>
--------------------	---

Benefits	<ul style="list-style-type: none"> • Our advanced long life inhibitor technology assures maximum protection against freezing, boiling and corrosion. • Provides better metal protection. • Good compatible with seals and elastomers. • Hard water stability.
-----------------	---

Typical Properties

Test	Method	Typical Results
Appearance	Visual	Red and transparent liquid, odorless
Density @20°C, (g/cm ³)	JIS K2234	1.115
Viscosity @ 40 °C (cSt)	JIS K2234	8.6
Freezing Point, °C	JIS K2234	-36
Boiling Point, °C	JIS K2234	169
pH	JIS K2234	7.57
Foaming Property, ml	JIS K2234	1.0
