

Product Description

GRANTT DOT 4 BRAKE FLUID EV is a premium performance hydraulic brake and clutch systems fluid, delivering optimized performance and component durability for today's Electric Vehicles braking systems. Especially recommended for ABS, TCS, ESP/DSC systems and latest vehicle equipped with ADAS (Advanced Driving Assistance Systems). It is especially suitable for electric and hybrid vehicles due to its high boiling points (dry and wet), low viscosity, and lower conductivity.

Application	GRANTT DOT 4 BRAKE FLUID EV is suitable for use where the vehicle manufacturer specifies DOT 4 brake fluid. It is delivering optimized performance and component durability for today's Electric Vehicles braking systems. It meets or exceeds the following performance requirements or manufacturer's specifications: <ul style="list-style-type: none">• JIS K2233• FMVSS No. 116 - DOT 4 Please follow original equipment manufacturers fluid recommendations.
--------------------	---

Benefits	<ul style="list-style-type: none">• Compatible with electric and hybrid vehicle gaskets and seals.• High boiling point.• Optimal additive technology, which prevents foam formation.• Excellent thermal stability.
-----------------	---

Typical Properties

Test	Method	Typical Results
Appearance	Visual	Bright & Clear amber
Density @30°C, (g/cm ³)	FMVSS No.16	1.019
Viscosity @-40°C, cSt @100°C, cSt	FMVSS No.16 FMVSS No.16	841 1.9
Equilibrium Reflux Boiling Point, °C	FMVSS No.16	254
pH	FMVSS No.16	8.4
