LONG LIFE RADIATOR COOLANT

CONCENTRATED

PRODUCT DESCRIPTION

GRANTT LONG LIFE RADIATOR COOLANT CONCENTRATED uses an advanced HOAT based corrosion inhibitor that protects against rust and corrosion of all cooling system components. It offers instant protection to all engines from freezing and boiling in severe weather condition. It meets or exceeds the following performance requirements or manufacturer's specifications: • **JIS K2234 – 2018 Class II** • **British Standard BS 6580:2010** • **ASTM D3306**

BENEFITS

• **Advanced long life inhibitor technology** assures maximum protection against freezing, boiling and corrosion. • **Better** metal protection. • **Good compatible** with seals and elastomers. • **Hard** water stability.

LONG LIFE RADIATOR COOLANT

PRE-MIXED

PRODUCT DESCRIPTION

GRANTT LONG LIFE RADIATOR COOLANT PRE-MIXED is a ready to use engine coolant that is formulated from a premium Ethylene Glycol and HOAT corrosion inhibitor. The coolant offers maximum cooling system protection against damaging rust and corrosion in modern light duty automotive engines. It meets or exceeds the following performance requirements or manufacturer's specifications: • **JIS K2234** • **BS6580** • **ASTM D3306**

BENEFITS

• **Advanced** long life inhibitor technology for maximum protection against freezing, boiling and corrosion. • **Protects** metal such as aluminium, steel, cast iron, copper and brass. • **Seal** compatibility. • **Ready** to use.

DOT 3 BRAKE FLUID

SUPER HEAVY DUTY

PRODUCT DESCRIPTION

GRANTT DOT 3 BRAKE FLUID SUPER HEAVY DUTY is a high performance fluid designed for use in the hydraulic brake and clutch system of passenger cars and commercial vehicles. It meets or exceeds the following performance requirements or manufacturer's specifications:

• **JIS K2233** • **FMVSS No. 116 - DOT 3**

Please follow original equipment manufacturers fluid recommendations.

BENEFITS

• **High boiling point** to provide consistent and safe brake performance. • **Outstanding protection** against wear and corrosion. • **High and low** temperature viscosity control. • **Excellent** thermal stability.

DOT 4 BRAKE FLUID

SUPER HEAVY DUTY

PRODUCT DESCRIPTION

GRANTT DOT 4 BRAKE FLUID SUPER HEAVY DUTY is a high boiling point brake fluid comprising of diethylene glycols and borate esters designed to be used in all brake systems which are exposed to an extreme condition. It is suitable for use where the vehicle manufacturer specifies DOT 4 brake fluid. It meets or exceeds the following performance requirements or manufacturer's specifications: • **JIS K2233** • **FMVSS No. 116 - DOT 4**

Please follow original equipment manufacturers fluid recommendations.

BENEFITS

• **High boiling point** to provide consistent and safe brake performance. • **Outstanding protection** against wear and corrosion. • **High and low** temperature viscosity control. • **Excellent** thermal stability.
